

Service Assured Networking Solutions

Your Benefits:

- Ensure reliable, uninterrupted communications between different traffic control centers with RAD's multiservice connectivity solutions over any transport network, including SDH/SONET/PSN/OTN/DWDM
- Deliver direct speech (DS), Telex (TTY), radar data (RD), extended range VHF (ER), and VHF data link (VDL) traffic, together with other voice, fax and LAN services, using industry-standard interfaces
- Transport traffic over copper, fiber, microwave, or satellite links
- Distributed SCADA security suite with integrated firewall and encryption
- Optimized for subrate leased line transmission and backup to reduce OpEx
- Ruggedized platforms withstand the rigors of field operations
- Support fail-safe operations with ISDN, VSAT and Ethernet backup

Products Included in this Solution:

Megalex-4
Next-Generation Multiservice Networking Node

PacketLight
Complete Solutions for WTM/OTN and Dark Fiber Applications

RADview
Network Management and Orchestration

Your Network's Edge

2 Airport Communications

Your Benefits:

- Ensure uninterrupted communications between control towers and traffic control centers with RAD's multiservice connectivity solutions for air-traffic control communications
- Deliver direct speech (DS), Telex (TTY), radar data (RD), extended range VHF (ER), and VHF data link (VDL) traffic, together with other voice, fax and LAN services, using industry-standard interfaces
- Ruggedized platforms withstand the rigors of field operations for outdoor CCTV cameras and other security applications
- On-the-move communications for vehicles and vessels in airports and harbors
- Transport traffic over copper, fiber, microwave, or satellite links
- Distributed SCADA security suite with integrated firewall and encryption

Products Included in this Solution:

Airmux-Mobility
Mobile Wireless Access

Megaplex-4
Next-Generation Multiservice Networking Node

SecFlow-2
Ruggedized SCADA-Aware Ethernet Switch/Router
